GOURAV BAKSHI

B. TECH CSE • 7TH SEM • 2021-2025 • 21CET0020.

Profile

Enthusiastic Computer Science graduate with strong programming skills in Java and web development. Seeking an entry-level position to contribute to innovative projects while continuing professional growth.

Industry Experience

I'm eager to gain industry experience as soon as I will get any opportunity to showcase my expertise related to my knowledge of different skills set.

Internship Experience

Web Dev Intern | Tech-A-Intern | Jun 2024 – Jul 2024

- Acquired hands-on experience with React and JavaScript, fostering efficient collaboration and enhancing code quality in web development projects.
- Completed a variety of web development tasks that improved functionality and user experience, significantly expanding my knowledge of web technologies and best practices.

Project

Teaser Time | Spring Boot, MongoDB, React, CSS

- A web application that showcases movie trailers and posters, providing users with an engaging platform to explore and discover new films.
- Fostered discussion among movie enthusiasts through review submissions.
- Live Link - <https://teasertime.netlify.app/>

Spotify Clone | HTML, CSS, JavaScript

- Successfully recreated the Spotify UI using HTML, CSS, and JavaScript, ensuring precise design replication.
- Optimized for viewing on desktops, tablets, and smartphones.
- Implemented custom player for better user experience.
