Ghaziabad 201010 | 7542097555 | aj147ps@outlook.com

Summary

Dedicated and adaptable software engineer with a strong passion for developing robust and dynamic software solutions. Experienced in a wide range of technologies and eager to tackle new challenges.

Skills

- Fluent in Python, Golang
 - Scripting Languages: Python, Javascript, HTML5, CSS3,
 - Git proficiency
 - UI Frameworks: Selenium, PyQt5, Tkinter
 - Data structures and algorithms
 - Software Architecture Design, Software Debugging
 - SQL expert, PostgreSQL, SQLite3, (SQL integration)
 - Algorithm design and implementation
 - System debugging
 - Software Development Life Cycle (SDLC)
 - Code Development
-

Experience

Senior Software Engineer

08/2023 to Current

Google

Chicago, United States

- As a Backend Engineer specializing in Golang, I am currently working on the Google Assistant project, where I develop and maintain APIs that enhance user interactions and streamline functionality. My focus is on creating robust and efficient RESTful APIs that ensure seamless integration and performance.

Previously, I contributed to ThriveeDX, leveraging Python and Django to build scalable backend systems. This diverse experience has equipped me with a strong foundation in software development, allowing me to tackle complex challenges with innovative solutions.

I am passionate about technology and thrive in collaborative environments where I can contribute to impactful projects. Let's connect to discuss how we can drive innovation together! Software Engineer

01/2022 to 05/2023

Think Future Technologies Pvt. Ltd.

Gurugram

- Managed three distinct projects, showcasing adaptability and proficiency across diverse technologies.
- Developed, tested, debugged, and documented software programs using Golang, Python (Django), JavaScript, and HTML and CSS.
- "SelfBest": Enhanced user efficiency and skill learning process. Using Postgres, Golang as technology.
- "Billing App": Utilized Golang, gRPC, Postgres, HTML/CSS, JavaScript, and Go Templates for precise user resource usage analysis and budgeting. Implemented automated testing with Selenium.
- "ThriveDX": Developed both backend and frontend using Python (Django), Postgres, HTML/CSS, JavaScript, and conducted thorough testing with Selenium.

- Maintained existing software systems by identifying and correcting software defects.
- Utilized version control tools such Git or SVN for managing source codes across multiple projects.
- Documented software designs and architecture for future reference and maintenance.
- Coordinated with quality assurance teams to ensure software met all testing criteria.

Key Skills: Golang, Python (Django), gRPC, Postgres, HTML/CSS, JavaScript, Selenium, Git, Version Control.

Education and Training

Bachelor of Technology: Coomputer Science And Engineering	06/2022
Guru Gobind Singh Indraprastha University (BPIT)	New Delhi
• Percentage - 89.9%	
Class XII: Science , Non-Medical	05/2017
Arwachin Bharti Bhawan Senior Secondary School	Vivek Vihar, New Delhi
• Percentage - 74.6%	
Class X	04/2015
Arwachin Bharti Bhawan Senior Secondary School	Vivek Vihar, New Delhi
• Percentage - 83.6%	

Activities and Honors

- Use to Play Cricket ant Watch

Languages

Hindi: First Language

English: C1

Advanced (C1)
