SUMMARY

Software Engineer with 3+ years of experience in distributed systems and backend engineering. Improved global software delivery efficiency by **50%** and cut deployment time by **30%** by designing scalable microservices and orchestrating Kubernetes (on-prem). Skilled in C++, C#, Java, Python; focused on building high-performance, secure, and reliable systems at scale.

EXPERIENCE

Qualcomm

Hyderabad, India

Software Engineer

Dec 2023 – Present

- Built and launched **Qualcomm Software Package**, a global distribution platform serving **13,000+ customers**, improving delivery efficiency by **50%**.
- Designed and deployed **10+ containerized microservices** on Kubernetes (on-prem) using Docker, **reducing deployment time by 30%** and **infrastructure costs by 20%**.
- Led migration of a mission-critical .NET service from **Siteminder (HTTP) to ZTIAP (HTTPS)**, enabling TLS 1.2, updating WCF & REST endpoints, and reconfiguring IIS servers to meet enterprise security compliance.

Associate Software Engineer

Sept 2022 – Dec 2023

- Re-engineered **database schemas** for Qualcomm Package Manager, improving query performance by **30%** and automating workflows with Python, saving **15+ engineering hours weekly**.
- Developed a high-throughput **ASP.NET package delivery system** that achieved **99.9% uptime** and **100% delivery accuracy**, validated through extensive testing.

EDUCATION

Indraprastha Institute of Information Technology Delhi (IIITD)

May 2022

B.Tech. in Computer Science

PROJECTS

AnimeOWL — Scalable Anime Streaming Platform

July 2021 – Mar 2022

- Engineered a Flutter + Firebase streaming app handling **85,000+ concurrent users** and **1,000+ API requests/sec**, reducing latency by **56%** through optimized caching and query design.

Music Genre Classification — Machine Learning Model

Nov 2021 – Dec 2021

- Designed ML models (SVM, KNN, Neural Nets) achieving **73.4% accuracy** on a **1,000-sample dataset**, outperforming baseline models by **20%** via feature optimization and hyperparameter tuning.

SKILLS

Programming	C++, C#, Java, Python, SQL, NoSQL
Systems	Distributed Systems, Microservices, High Availability, Security
DevOps	Docker, Kubernetes, Jenkins, Gitiles, CI/CD
Frameworks	ASP.NET, Dapper, Django, Flask, Flutter, Firebase
Other	System Design, Scalability, Performance Optimization

EXTRACURRICULAR

- Secured **3rd place** in PitchCafe2.0 Entrepreneurship Competition among 15 teams, showcasing strategic planning and innovation.
- Captained and organized events for the college handball team, demonstrating leadership and collaboration.
